

Join the Northeast Heather Society

Membership in the Northeast Heather Society is open to anyone who pays dues to this chapter. Membership benefits include: an email notice that the latest Heather Notes newsletter has been uploaded to the website or you can receive a paper copy of the newsletter for a nominal fee. As a member you may participate in chapter meetings and elections, you have borrowing privileges for slide/power point presentations, and most valuable of all, contact with fellow heather gardeners who mostly live in or near your growing zone, all willing to share helpful advice and their experiences. Your membership dues will allow us to maintain a dynamic and informative website containing timely tips on Heather culture, Calendar of NEHS events, featured gardens of NEHS members and much more. A family membership permits more than one family member to vote and participate in all NEHS activities for an additional \$5 per year fee above the annual dues. The family membership includes all adult household members residing at the same address and each member has one vote. If the member has opted to pay extra for a paper copy of the newsletter, only one copy of the published newsletter will be mailed to your address.
